

**Virtual at Home Storytime**  
**Presented by Lucia Modestino-Ulmer**

Check out the book **Unicorn Day** on [Hoopla](#). Each day, Monday through Friday, read the book with your child. After reading the book, complete the provided activities.

Repetition is important for strengthening neural pathways in the brain, building language skills, developing a robust vocabulary, and allows children to take an active part in the reading process through memorization and prediction.

**Monday**-Talk with your child. “Walk” through the book page by page and ask your child about what the unicorns are doing on each page and the different types of unicorns and all the things that make them unique. Ask your child what they believe makes them unique.

**Tuesday**-Sing with your child. You can sing along with a Unicorn song [here](#), or you can sing “My Unicorn”

(Tune of My Bonnie)

My Unicorn lives under the rainbow

My Unicorn lives under a tree

My unicorn lives under the rainbow

Oh, run back, my unicorn to me

Run back, run back

Run back my unicorn to me, to me!

Run back, run back

Oh, run back my unicorn, to me!

**Wednesday**- Write with your child. Grab some crayons and paper and draw yourselves your own fancy unicorns, you can also grab some glue and glitter to make your unicorns sparkle. You can also print off coloring pages of unicorns [here](#), where there are many different types of unicorns to choose from.

**Thursday**- Read with your child [here](#) on Hoopla. You can ask your child to read to you, use the read along feature or watch the movie and read along with it.

**Friday**- Play with your child. You can put some music on and sing and dance with your child. You can create your own games like unicorn horn ring toss or create your own [slime](#) and add glitter or color and make rainbow slime.
