Foreword

Education is an adventure. It is a journey involving exertion and determination.

The school is the place where a student may learn from those who know--search things out for himself--aspire to the stars--work and play--listen and talk--exchange ideas with others. It is the place where he may achieve his respected goal.

The student is not asked to travel alone, but is given guides to lead him. He is not a guest but a member who shares responsibility for those who travel with him.

The mark of the educated man is not only that he has developed his talent but that he has an awareness of the gifts of others.

MICHIGAN STATE UNIVERSITY--OAKLAND

NORTH CENTRAL CHRISTIAN COLLEGE

The kind of world we will live in tomorrow depends—not partially—but entirely upon the type and quality of the education of our students today. Education makes a people easy to lead, but difficult to drive; easy to govern, but impossible to enslave.

Education is an adventure. It is a journey involving exertion and determination. The mark of the educated man is not only that he has developed his own talent but that he has an awareness of the gifts of others.

Proper Education Calls For An

Efficient Administration and Faculty...

It is the purpose of our school to have a program of studies, activities and services that will provide for many and varied living experiences. Courses are planned to meet the needs of college preparatory students, to train those interested in vocational work and to help the one who is not yet ready to decide on his future job or profession.

There is something here for everyone. We read great literature and study history. We experience the truths of science and of mathematics. We enjoy music art and the languages. We become adept in typing, shorthand and industrial arts.

We learn that it is fun to exercise our minds.

In Appreciation

LEWIS B. ARSCOTT

We, the student body of Rochester High School, would like to express our appreciation to Lewis B. Arscott for the service he rendered this community during the 15 years he served on the Board of Education. He contributed a great deal from his engineering background and sacrificed much of his personal time to serve on the Board.

During his term of office--July 1944 to June 1959--consolidation of 15 districts took place, six of them in 1949 and the remaining 9 in 1953. The construction program he helped supervise included additions to the Hamlin, Goodison, and Woodward schools. New Buildings completed were North Hill, Meadow Brook, the High School and the Bus Garage.

From 1950 to 1955, Mr. Arscott served as secretary and from 1955 to 1958 as President of the Board. During these years his best efforts were spent in our behalf and for the general welfare of the community.

What greater tribute can we offer than to say that he will long be remembered for his untiring service to others. His years of valued service are deeply appreciated and his wise counsel is greatly missed.

"Knowledge comes, but wisdom lingers."

Board of Education

We would like to pay the highest tribute to the Board of Education in its role as policy maker. Certainly a school system can be no better than its Board of Education and by this token is our district measured. We thank these public spirited people for the many educational advantages they have provided for us.

In Memoriam

We of the student body offer this page in memory of Roland Semble, artist, instructor, and friend. Many of us have benefited from his instruction and developed an appreciation for the beautiful which was so vital a part of his life. He had a rare wit, a jovial sense of humor and his philosophy seemed to be "make the world a more beautiful and better place because you have lived in it."

Through the gift that was his, he was able to share with others in a way that will never be forgotten.

It is truly said that a man builds his own monument for the memory of his work lives after him.

"He who from zone to zone,
Guides through the boundless sky thy certain flight,
In the long way that I must tread alone,
Will lead my steps aright."

Sportsmanship . . . Keynote to Maturity,

Competitive athletic events have always been considered important by both the students and faculty of Rochester High. The Falcons have established an impressive record in interscholastic contests, by means of their athletic prowess, and through the sportsmanship which they always display. During the past season the Falcons increased their status as a local sports power, and received much recognition from coaches and fans alike.

The members of the football squad of 1959 will certainly remember the past season's thrills. The Falcon eleven rolled up an impressive winning record as they powered their way to an undisputed Tri-County Conference Championship. The Falcon offensive unit rolled up yardage and points with a consistency that showed their hustle and determination. Not to be outdone, the defensive unit turned in three shutouts. The Falcons capped their season at Avondale, as they rolled over the "highly touted" Yellow-Jackets on a rain-swept, muddy field.

As the 1959-1960 basketball season began with the game and victory over Avondale, it seemed as if the inexperienced Falcons would take up right where the great teams of the past had left off. Suddenly, the team took an abrupt nose dive and lost seven consecutive games. The Falcons looked fairly good, yet they were invariably losing by the closest of margins. Finally, they returned to the friendly surroundings of the big, R. H. S. gym to meet league rival L'Anse Cruse. The "hardwood" five bombed the Lancers. Confidence restored, the Falcons seemed to "jell". The Rochester quintet dumped the formidable Romeo Bulldogs and climbed back on the victory trail.

Baseball

In the past few years, interest in baseball has been practically nil at R. H. S. This year the baseball team is out to bring back spectators to the diamond. With many lettermen from last year's team back again, the Falconnine is confident it will improve upon last season's winning record. It seems clear that Rochester has the man power and needs only the student support to capture that elusive Tri-County crown.

Our Needs as Socially Educated Citizens

Education includes many things, the social life of the student, however, is one important phase. The word social is very inclusive in its meaning. It covers the awareness of the needs of those less privileged whom we try to help with gifts from the charity work of our organizations.

Having good times together through dances, assemblies, plays, concerts, etc. establishes better relationship among the members of the student body.

Schedule changes already?

The summer has passed. The more serious things of life are beginning. We are taking another step toward our goal--a good education.

Each anticipates the return to school in his own way. The sophomore looks forward to a glorious adventure in our new building. The junior feels more assurance and new opportunities. The senior realizes this as his big year.

Up the ladder of success.

That gay, wide awake, feeling!!

Foreign Exchange Student

PADDI DE MOREE

This year, for the first time, our Student Council sponsored a foreign exchange student at Rochester High School.

She is eighteen year old Paddi DeMoree of Breda, Holland. Paddi was chosen by the American Field Service (A.F.S.) to become our foreign student. She arrived in Rochester on September sixth, and became a guest in the home of Mr. and Mrs. William Blanton. On September ninth, only 3 days after her arrival, she began school and found it much different than her former alma mater. Among her courses were Junior and Senior English, Government, American History, and Speech. She also requested to be a member of the Student Council as she had not experienced a course like this in Holland.

Paddi's first introduction to the community was at the annual Homecoming celebration. Since then she has spoken to many groups in Rochester, telling of herself, her country, and her opinions and ideas on America. Her speech was given to the student body on February 19. Along with Paddi's speech we heard another foreign exchange student from Farmington.

The American Field Service who sponsored Paddi is a group that was organized to promote better relationships between American and foreign students. The program began in the forties for colleges and in the fifties was extended into the high schools.

We are very happy to have had Paddi with us and we will all be very sorry to see her leave. She has been a charming addition to our school.

We are looking forward to our next year's foreign exchange student.

The Sadie Hawkins Dance was held in the traditional manner this year. The high school cafeteria and marryin' Sam set the stage for the evening. Four prizes of year books were given to the best dressed couple and those with the most unusual corsages. Refreshments for the evening consisted of cider, donuts and pop.

Camp what?

She's delicate?

Who put out the lights?

Guaranteed to make you slim dearie!

On November 19 and 20, the Senior Class presented the hilarious three-act comedy "The Egg and I".

The situations in which the MacDonalds find themselves are very entertaining. Betty, Anne and Joan almost give up trying to cope with living on a chicken ranch in the Mt. Olympus wilderness. Having to deal with such things as Indians, panthers, no telephone or bathtub, getting up before dawn, outside facilities, etc. proved almost too much for the city bred family. However, a surprise event "saves the day".

Adding a touch of glamour.

The good, clean, fresh, country air.

Dance with me

R. H. S. 's Homecoming for 1959 was every bit as gala and exciting an affair as in preceding years. There were floats, a parade, noise and fun. We demolished Lapeer at the big game and held a "winners'" dance afterward; and, of course, the big dressy dance was held the next evening. All classes and clubs shared in making it a great and memorable event.

"Teen Angels"

Just what I've always wanted!

The panic-stricken department store Santa Claus, the poor people who don't expect a Christmas, the religious aspect of the holy day--these were done in the Christmas Assembly by the dramatics classes.

The choir augmented the occasion with several beautiful selections.

"HO HO HO"

"Hallelujah"

Christmas Dance

Annually, the student council sponsors a Christmas dance. This year the dance was held on December 19. There were many festive decorations, and the spirit of the season was prevalent. The couples danced to albums and cookies and punch were served.

Charity Ball

An "Enchanted Sea" set to music by Al Hopper's Blue Tones was the scene of the Charity Ball on November 14. Shells, sea-horses and fish helped transform the cafeteria into a truly "enchanted" place. This was the largest project of the Junior-Senior Girls this year. Finances realized from this dance, set the tone for the charity work of the year.

Where did that peddler's cart come from?

The J-Hop--theme "Gay Paree"--was held on February 20, from 9:00 to 12:00. During that time, couples visited the art galleries and stopped in at the sidewalk cafe. Dancing to the music of Wally Earl's "Blue Notes" was enjoyed by all.

A great deal of laughter and commotion was created on the night of March 15 in the gym during the donkey basketball games. The junior class boys proved worthy opponents for the senior boys. The high-light of the evening, however, was the defeat of the senior high faculty by the junior high faculty--score 4-2. The proceeds went to the foreign exchange program.

The R. H. S. Choir began its brilliant season of 1959-60 with an Armistice Day concert. They also lent much atmosphere to the Christmas assembly by presenting a few selections from the repertoire of their Christmas Concert. Their work after Christmas was rewarded when they returned from the Waterford Choir Festival with a superior rating. They closed their season with a sing in an assembly where show tunes were featured.

With the beginning of this school year, the Student Council became a very busy organization. One of its first projects was the annual Homecoming celebration, which came unusually early this year. The Christmas dance and assembly, the March of Dimes and the Sanders candy sale were among the other projects completed by this group.

Most important of all was the sponsoring of an exchange student at the school. It was their first attempt at supporting a student but it has been so successful that they are planning to have one every year. They also hope to send a Rochester Junior to Europe this summer.

Now in its second year at R. H. S., the J. E. T. S., or Junior Engineers Technical Society, are training young people who are interested in becoming engineers. They receive study material from colleges and turn in a project every year.

To serve others, particularly in the field of health, and to observe the educational requirements for the profession of nursing, is the aim of this group. Visits to Henry Ford School of Nursing and to the Nursing School of the University of Michigan were made during the year. Several money-raising projects were held, and all proceeds were put toward a nursing scholarship. This will be given to its most deserving senior member.

Continuing its active program this year, the Varsity "R" Club, in addition to supplying programs, initiated a new fund-raising project--the bottle drive. With the increased revenue, the club was able to purchase a rubbing table and track records board for the school. The club also attended "Big Ten" football games between Northwestern and Michigan, and Northwestern and Michigan State.

This is the second year R. H. S. has been able to boast a Hi-Y club. Its standards of "clean living" and "good citizenship" make it a worthwhile addition to the school. The club, seventeen members strong, has worked on various community projects.

The object of the club is to provide its members with information about opportunities in various fields of education. The club this year has visited colleges, and attended a tea given for the clubs throughout this area. Several of its members have received some actual experience through cadet teaching.

Too tired to care.

There's work for all.

The "chief" at work.

Jeff working?

An editor, a typing staff, literary staff, photography staff, business staff, art staff, and some 50-odd students made up a Yearbook organization this year. Everyone had individual jobs assigned to him by his editor and attended general meetings where he had a voice and vote in many important decisions. Working, and worrying right up to that April 1 deadline, everyone enjoyed the relief that came when the completed material was sent into the publisher. After that there was only to wait for the return of the finished product--the "fruit of 8 months toil"--the 1960 Falcon!

Science Club

The members of this group not only gained knowledge for themselves but gave others the chance to learn more of the mysteries of chemistry and physics. As part of their program, they gave to a group of scouts a demonstration of experiments devised to illustrate some of the amazing phenomena of nature.

The main concern of this group was to increase their treasury in order to handle the expenses of the junior year. This was done by holding an after-game dance and sponsoring a project. Active participation in Homecoming brought the group third prize for their float.

The Junior Class was very ambitious. Not only did they win first prize in the Homecoming parade, they won the spirit jug a number of times. Of course, the fact that they are the largest class might have some bearing on their yelling. To add to their riches, the Junior Class sponsored two after game dances and the J-Hop. The J-Hop, by the way, a very beautiful affair had the theme "Gay Paree."

In the spring they sponsored the Jr.-Sr. banquet as their farewell to the Senior Class.

As we entered our senior year, having completed two previous enjoyable high school years, we looked forward to our Senior Play, "The Egg and I," several senior-sponsored after-game dances, and participation in Homecoming.

Scholarship, Service, Leadership and Character are the qualities necessary for membership in the National Honor Society.

In order to be considered a candidate one must have a "B" average scholastically, a citizenship grade of 2, (or as it is graded on our present report cards a "B") and must have earned at least 27 service points.

Activity points earned by the students are recorded each year on a permanent record sheet. These are given by sponsors in charge of the various activities. In addition to points earned in a club or organization, the student may accumulate points in class activities, special musical groups, plays, etc. No points are listed when a student receives credit which applies toward graduation.

Candidates are initiated into the National Society during the final week of school.

Joan Westermann

Stephane Zerby

To learn to write clearly and correctly is Mr. Lawson's aim for the students in English IV. They do lots of writing under criticism and become experts in reading and understanding the copyreader's marks.

Participation in plays, skits, pageantry, assembly programs and various types of entertainment is given throughout the year by students in the dramatics class. This group is performing for their classmates.

Many students find physics a very fascinating class, since it reveals so many interesting facts about our immediate environment. Here George is showing his project to Jack and Marvin.

Memories

Social Living is an elective class for seniors only. Here Diane Allen is demonstrating buymanship and showing the group what to check when purchasing clothes.

These art students have shown an interest in the profession of map making. Here they are drawing a map of the school district.

How come, Ross, this is for seniors only.

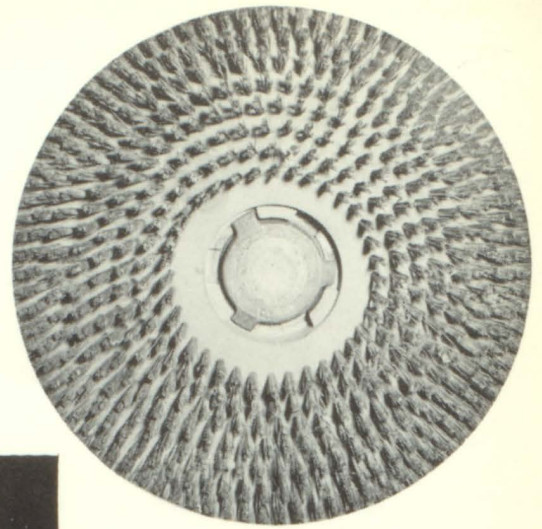

Actual office experience in the use of various machines is gained by the students in office practice. Virginia and Pat are completing their work of the mimeograph.

Do You Know Your School?

Look again!

This goes around and around.

What goes in it?

They all have them,
but not this messy.

You can't get around it.

Which way do they go?

Look up.

Do you know enough about your school to be able to identify these objects and places ?

Watch that spray!
